Dog Breeds

Introduction

On this data analyst project, we worked on the twitter account WeRateDogs (@dog_rates).This account is a popular Twitter account that rates dogs.

This account is about rating dogs with a humorous. The rating denominator is 10 and the numerator is more than 10 (14, 12, 17). We tried to get some insights by analyzing and visualizing the wrangled data gathered from many provided sources. We had some Insights like:

- What are the most popular breeds dogs?
- What is the dog breed who get the highest retweet?
- Which dog breed get the highest favorite counting?

Here we tried to answer to these questions:

## Insight one: the most popular dog breed

The most popular breed dog

After analyzing these observations got from the wrangled data process and plotting, we notice that the *Golden retriever* dog breed is the most popular dog breed inside the WeRateDogs community whit 162 tweets.

Insight two: the dog breed whit the most high retweet

The most retweeted dog

We can see that the *Afghan_hound* dog breed is the most retweeted breed with an average of 8017.5 retweet, followed by the *Bedington terrier* dog breed with 7510.17 retweet on his counter.

Insight three: the dog breed who got the most high favorite counting

The most favorite breed

For this insight, we can see that the **_Saluki_** dog breed is the most favorite breed for the WeRateDogs twitter account, with an average of 24060.0, followed by Afghan_hound with the average of 22451.0, after come Bedlington_terrier with an average of 21153.17, French_buildog (18416.81) and in the 5th position we have Bouvier_des_Flandres breed with 18416.81.
